Y6 AUTUMN CURRICULUM MAP

ENGLISH

English this term will be based on the book Holes. Children will read the book in our reading comprehension lessons before using this knowledge in their writing. They will create an advert for Camp Green Lake and a narrative based on the notorious Kissin' Kate Barlow

MATHEMATICS

In Mathematics, we will develop our understanding of integers, decimals, multiplication, division, fractions and percentages. We will also explore geometry, building confidence in solving problems and applying our maths skills in a range of contexts.

RELIGIOUS EDUCATION

In In RE, we will explore the idea of life as a journey and reflect on how our own experiences may differ from those of others. We will also learn about the different journeys and beliefs within a range of faiths and worldviews.

SCIENCE

In Science, we will explore animals, including humans, and investigate how living things are classified. We will also learn about different habitats and how living things are adapted to survive in their environments.

HISTORY/ GEOGRAPHY

IIn History, we will explore Ancient Egypt. We will learn about Egyptian society, pharaohs, pyramids and daily life and investigate why this civilisation remains important today.

COMPUTING

In Computing, we will create 3D models using digital design tools and explore how they are developed. We will also learn how variables are used in programming to create interactive games and solve problems.

PSHE

We will explore what it means to be part of a community in PSHE this term by thinking about achievements, goals and our responsibilities. We will also learn about children's rights and consider the difference between wants and needs.

PHYSICAL EDUCATION

We will develop our skills in tag rugby, gymnastics and fitness activities in PE with a focus on teamwork, coordination, strength and resilience.

.

ART & DESIGN/ DESIGN & TECHNOLOGY

In Art and Design, we will develop our drawing skills by exploring how 2D drawings can be transformed into 3D creations. We will take inspiration from Lubaina Himid to experiment with shape, colour and storytelling in our artwork.

MUSIC

In Music, we will explore cyclic patterns through African drumming, as well as vocal and harmony accompaniments. We will develop our rhythm, listening and performance skills by creating and performing music together.
