

## Rainhill Chasing Rainbows

Rainhill Chasing Rainbows is a Community Facebook Group that aims to encourage the children of Rainhill to enhance the community and the environment they live in. We hold regular litter picks during school holidays and would love more children to get involved. Our next event is during October half term.

We have orange council bags available to collect your litter in and leave by a council bin for collection. Should you need to borrow a litter picker and some high viz we can help! Please pop over to our Facebook Page and join in.

Some of our members have made “Scare Eco Crows” for the Rainhill Scarecrow Festival. The Children from Reception have also made a few. You can see them in the Millennium Centre and in the Secret Garden in Rainhill Hall during the festival.

St Ann’s support our litter picking events and provide Certificates for those children who get involved.
